FARIS MUNIR MAHDI

Fullstack Engineer

farismnrrbusiness@gmail.com | +62 852-1565-2903 | Portfolio: https://farismnrr.com | linkedin.com/in/farismnrr

SUMMARY

Fullstack engineer with over one year of professional experience building backend services, web and mobile apps, and AI and IoT products. Works across APIs, data, and interfaces with design, infrastructure, and security teams to deliver reliable releases.

SKILLS

Languages: TypeScript, JavaScript, Go, Python

Backend & AI: Node.js, NestJS, Hapi, Fiber, FastAPI, LangGraph, RAG

Frontend & Mobile: React, Vue, Svelte

Data & Infrastructure: PostgreSQL, Redis, Docker, OpenTelemetry

EXPERIENCE

Software Engineer | PT Perkasa Pilar Utama | July 2025 – Present

Coordinate requirements and integration work with AI, IoT, infrastructure, security, and UI/UX engineers. Resolve production issues together and adapt priorities while moving software from development through release.

- Built resumable uploads and local recording backup for Sensio Notes, on web and mobile.
- Built the backend for room controls in Sensio IoT: commands, device-state feedback, and permissions.
- Turned design mockups into working web and mobile screens.
- Fixed production issues and shipped releases alongside the infrastructure and security engineers.

Machine Learning Track | Coding Camp powered by DBS Foundation | February 2025 – July 2025

Coordinated GiziLens web app work with the food-recognition team, explaining API needs and aligning integration across disciplines.

Backend Engineering Program | Ruang Guru Academy | February 2024 – June 2024

Learned an unfamiliar open-source chat codebase, adapted it for the program project, and deployed authenticated APIs.

SEO Trainee | PT Tradeasia International Indonesia | January 2024 – March 2024

Used search research, technical SEO reviews, and analytics to prioritize pages and topics for attention.

Cloud Computing | Bangkit Academy | August 2023 – January 2024

Aligned API contracts and documentation with mobile and machine-learning teammates in a three-track capstone.

PROJECTS

Sensio Notes | Professional | sensio.id

Meeting assistant for searchable notes and action items. Built web and mobile recording, browser-based meeting integrations, background processing, and live status updates.

Tech stack: Capacitor, NestJS, LangGraph, Graph RAG, PostgreSQL, pgvector, Redis, Docker, OpenTelemetry

Sensio IoT | Professional | sensio.id

Smart-room controls for lighting, climate, equipment, and sensors. Built device APIs, MQTT and Zigbee2MQTT flows, telemetry, automations, and permissions.

Tech stack: Rust, Axum, PostgreSQL, Docker, GitHub Actions, OpenTelemetry, MQTT, Zigbee2MQTT

Personal Portfolio | Personal | farismnrr.com

Markdown-driven portfolio with prerendered pages and AI job matching. Built Svelte and Rust apps, hybrid retrieval, and cross-platform CI/CD deployment.

Tech stack: TypeScript, Rust, Svelte 5, Axum, RAG, PostgreSQL, pgvector, Docker, GitHub Actions

Masih Awam Workspace | Personal | workspace.masihawam.com

Open-source workspace that coordinates AI specialists and verifies results. Built task orchestration, permissioned tools, isolated execution, and proof reports.

Tech stack: Go, TypeScript, Svelte 5, Fiber v3, SQLite, MCP, OpenAI Codex, Claude Code, OAuth 2.1, PostgreSQL, MySQL, MongoDB, Docker, GitHub Actions

IoTNet | Professional | Private project, under NDA

IoT operations platform for devices, automations, and telemetry. Built tenant access, MQTT command flows, event rules, OTA tracking, and tracing.

Tech stack: Nuxt, Vue, TypeScript, Hapi, Bun, PostgreSQL, MQTT, OpenTelemetry

EDUCATION

UPN "Veteran" East Java | Bachelor of Informatics | 2021 — 2025 | Cum laude, GPA 3.91/4.00

CERTIFICATIONS

Alibaba Cloud Certified Professional | Alibaba Cloud

BNSP: Junior Web Programmer | LSP UPN Veteran Jawa Timur | October 2025

BNSP: IoT Device Engineer | LSP Teknologi Digital | August 2026
