FARIS MUNIR MAHDI

Fullstack Engineer

farismnrrbusiness@gmail.com | +62 852-1565-2903 | Portfolio: https://farismnrr.com | linkedin.com/in/farismnrr

SUMMARY

Fullstack engineer with over one year of professional experience building backend services, web and mobile apps, and AI and IoT products. Works across APIs, data, and interfaces with design, infrastructure, and security teams to deliver reliable releases.

SKILLS

Languages: TypeScript, JavaScript, Go, Python

Backend & AI: Node.js, NestJS, Hapi, Fiber, FastAPI, LangGraph, RAG

Frontend & Mobile: React, Vue, Svelte

Data & Infrastructure: PostgreSQL, Redis, Docker, OpenTelemetry

EXPERIENCE

Software Engineer | PT Perkasa Pilar Utama | July 2025 – Present

Coordinate requirements and integration work with AI, IoT, infrastructure, security, and UI/UX engineers. Resolve production issues together and adapt priorities while moving software from development through release.

Machine Learning Engineer | Coding Camp powered by DBS Foundation | February 2025 – July 2025

Completed the Machine Learning track through a team capstone, GiziLens. Coordinated web app work with the food-recognition team, clarifying API needs and aligning integration across disciplines while contributing the app's accounts, sessions, and user APIs.

Backend Engineer | Ruang Guru Academy | February 2024 – June 2024

Completed a full-time backend engineering program (MSIB Batch 6) with a project that adapted AskIn, an open-source AI chat app. Built authenticated APIs, model routing, and deployment.

SEO Trainee | PT Tradeasia International Indonesia | January 2024 – March 2024

Completed a three-month SEO traineeship at the Jakarta office. Researched search queries, reviewed technical SEO issues, and used analytics to decide which pages and topics needed attention.

Cloud Computing | Bangkit Academy | August 2023 – January 2024

Completed the Cloud Computing path of Bangkit 2023 Batch 2 through a three-track capstone, Parentify. Built the cloud side with mobile and machine-learning teammates, agreeing on API contracts and documenting the decisions.

PROJECTS

Sensio Notes | Professional | sensio.id

Meeting assistant that turns recordings into searchable summaries, decisions, and action items. Built cross-platform recording, browser integrations, reliable uploads, background processing, and live status updates.

Tech stack: TypeScript, React, Capacitor, NestJS, LangGraph, Graph RAG, PostgreSQL, pgvector, Redis

Sensio IoT | Professional | sensio.id

Smart-room platform for controlling lights, climate, and equipment with sensor readings and automation. Built the Rust backend for device APIs, MQTT and Zigbee2MQTT integrations, telemetry, automations, and access control.

Tech stack: Rust, Axum, MQTT, Zigbee2MQTT, PostgreSQL, Docker

Personal Portfolio | Personal | farismnrr.com

Markdown-driven portfolio for projects, experience, certifications, and blog posts, with prerendered pages and SEO. Built Svelte and Rust apps with PostgreSQL-backed hybrid search and AI job matching.

Tech stack: TypeScript, Rust, Svelte 5, Axum, RAG, PostgreSQL, pgvector, Docker

Masih Awam Workspace | Personal | workspace.masihawam.com

Open-source workspace that coordinates AI specialists to build software and verify results before acceptance. Built task orchestration, permissioned tools, isolated execution, and verification reports.

Tech stack: Go, TypeScript, Svelte 5, Fiber v3, MCP, OpenAI Codex, Claude Code, OAuth 2.1, SQLite

IoTNet | Professional | Private project, under NDA

IoT operations platform for managing devices, users, automations, and telemetry. Built MQTT device control and telemetry, tenant-based access, event-driven automations, and OTA firmware tracking.

Tech stack: TypeScript, Vue, Nuxt, Hapi, Bun, PostgreSQL, MQTT

EDUCATION

UPN "Veteran" East Java | Bachelor of Informatics | 2021 — 2025 | Cum laude, GPA 3.91/4.00

CERTIFICATIONS

Alibaba Cloud Certified Professional | Alibaba Cloud

BNSP: Junior Web Programmer | LSP UPN Veteran Jawa Timur | October 2025

BNSP: IoT Device Engineer | LSP Teknologi Digital | August 2026
