FARIS MUNIR MAHDI

Software Engineer

farismnrrbusiness@gmail.com | +62 852-1565-2903 | farismnrr.com | linkedin.com/in/farismnrr

SUMMARY

Fullstack software engineer with over a year of professional experience building and maintaining applications, including their infrastructure and AI integrations, for day-to-day production use. I work in TypeScript, Rust, Go, and Python, on APIs, databases, LLM orchestration, and containerized deployments.

SKILLS

Languages: TypeScript, Rust, Go, Python

Backend & AI: Node.js, NestJS, Hapi, Fiber, FastAPI, LangGraph, RAG

Frontend & Mobile: React, Vue, Svelte

Data & Infrastructure: PostgreSQL, Redis, Docker, OpenTelemetry

EXPERIENCE

Software Engineer | PT Perkasa Pilar Utama | July 2025 – Present

Develop and maintain the company's products in production, covering backend, web, mobile, and device integrations. Work closely with AI, IoT, infrastructure, and UI/UX engineers.

Machine Learning Engineer | Coding Camp powered by DBS Foundation | February 2025 – July 2025

Completed the Machine Learning track through a team capstone, GiziLens. Coordinated web app work with the food-recognition team, clarifying API needs and aligning integration across disciplines while contributing the app's accounts, sessions, and user APIs.

Backend Engineer | Ruang Guru Academy | February 2024 – June 2024

Completed a full-time backend engineering program (MSIB Batch 6) with a project that adapted AskIn, an open-source AI chat app. Built authenticated APIs, model routing, and deployment.

SEO Trainee | PT Tradeasia International Indonesia | January 2024 – March 2024

Completed a three-month SEO traineeship at the Jakarta office. Researched search queries, reviewed technical SEO issues, and used analytics to decide which pages and topics needed attention.

Cloud Computing | Bangkit Academy | August 2023 – January 2024

Completed the Cloud Computing path of Bangkit 2023 Batch 2 through a three-track capstone, Parentify. Built the cloud side with mobile and machine-learning teammates, agreeing on API contracts and documenting the decisions.

PROJECTS

Personal Portfolio | Personal | farismnrr.com

Faris's portfolio brings his projects, experience, certifications, and writing together in one place for visitors to explore.

Tech stack: TypeScript, Rust, Svelte 5, Axum, RAG, PostgreSQL, pgvector, Docker

Sensio Notes | Professional | sensio.id

Developed and maintained Sensio Notes end-to-end, covering frontend, backend, AI integration, and infrastructure.

Tech stack: TypeScript, React, Capacitor, NestJS, LangGraph, Graph RAG, PostgreSQL, pgvector, Redis

Sensio IoT | Professional | sensio.id

Developed and maintained Sensio IoT end-to-end, covering frontend, Rust backend, device integrations, AI orchestration, and infrastructure.

Tech stack: Rust, Axum, MQTT, Zigbee2MQTT, PostgreSQL, Docker

Masih Awam Workspace | Personal | workspace.masihawam.com

Masih Awam Workspace turns a software request into tasks for an AI team, then shows the work and evidence for review.

Tech stack: Go, TypeScript, Svelte 5, Fiber v3, MCP, OpenAI Codex, Claude Code, OAuth 2.1, SQLite

IoTNet | Professional | Under NDA

IoTNet manages connected devices, tracks their readings, and runs rules for alerts, schedules, and room controls.

Tech stack: TypeScript, Vue, Nuxt, Hapi, Bun, PostgreSQL, MQTT

PUKAT: Business Networking Platform | Professional | Under NDA

Built PUKAT, a business networking platform where Indonesian business owners, professionals, and investors find each other and send messages.

Tech stack: TypeScript, React, Next.js, PostgreSQL, RAG, Docker

EDUCATION

UPN "Veteran" East Java | Bachelor of Informatics | 2021 — 2025 | Cum laude, GPA 3.91/4.00

CERTIFICATIONS

Alibaba Cloud Certified Professional | Alibaba Cloud

BNSP: Junior Web Programmer | LSP UPN Veteran Jawa Timur | October 2025

BNSP: IoT Device Engineer | LSP Teknologi Digital | August 2026
